

THE STACKPOLE-HALL FOUNDATION

Thank you Dr. William C. Conrad for your 47 years
of dedication and service to The Stackpole-Hall Foundation.

2018 ANNUAL REPORT

Best Wishes Bill

Dr. William C. Conrad, Bill to most of us, has transitioned in the year 2018 from longstanding executive director of The Stackpole-Hall Foundation, to trustee and chairperson of the Board. Bill joined the Foundation as the second full-time executive director on August 31, 1971, following Frank Jackson who served for 20 years as the Foundation's first executive director. Although the Foundation's mission is spelled out by our founders, it's been Bill's vision, leadership, and direction that has helped guide the trustees to uphold the wishes of the founders, while still adapting to the changing and evolving needs of the County and the country at large.

As soon as Bill started working for the Stackpole-Hall Foundation, he instantly became a student of philanthropy, involving himself in grant making organizations both nationally and locally. He sought ways to make the Foundation not just a charity funder, but a driver for change in the community. He sits on many boards in the area because organizations value his insights and ideas. There is not much that happens in Elk County that Bill Conrad is not privy to!

Over Bill's 47 years as executive director, he hatched the idea of a long-term planning initiative to help plot the future role of the Foundation's giving. Bill's inclination toward inclusion, prompted the initiative to seek the assistance of many leaders in the community, to assess the priorities of need in the County that the Foundation could focus its efforts on. The summer jobs program was also the brain-child of Dr. Conrad. This program has been extremely successful and has been emulated by other organizations throughout the state. Bill is an excellent writer as well and penned "Ripples on a Pond" in 1982 to document the early history of the Foundation. Bill has overseen the growth of the Foundation from \$6 to \$30 million net worth.

It has been difficult to think of the Foundation without Bill at the helm. However, we are fortunate that he has agreed to stay on as a trustee and to serve as the board chair. Who among us can imagine what a "retired" Bill Conrad might look like? My hunch is he will not look or act much differently. I believe we will continue to see him passionately involved in his community, looking for new ways to improve the quality of life for all those living in Elk County. As we thank Bill and wish him well in his retirement, we also want to acknowledge with gratitude the many, many contributions he has made, both personally and through the Foundation, to the lives of those living in our Region.

Alexander Sheble-Hall

Lifetime Trustee

Mission Statement

“The mission of The Stackpole-Hall Foundation is to first consider the needs of the people in Elk County, Pennsylvania with a goal of improving the fundamental quality of life. We will give priority to the educational, human service, and community development needs of the County.”

Trustees and family visit the Guardian Angel Center during their August 2018 retreat.

A Message from the Chairman of the Board

2018 marked a milestone in the chronicles of The Stackpole-Hall Foundation. On May 11, Jennifer Wendel Dippold was elected as only the third executive director of The Stackpole-Hall Foundation in its 67 year history. Ms. Dippold joined the foundation after 22 years with Dickinson Center, a leading behavioral health agency serving Elk and surrounding counties. Jen's service with the Center included a variety of leadership experiences including director of their children's prevention division, and she was the systems development and marketing director.

Jen's experiences with The Stackpole-Hall Foundation are wide-ranging because, Dickinson is one the leading grant recipients of the foundation; and her work as Dickinson's grant writer put her into direct involvement with the Foundation, on numerous occasions during her tenure at the Dickinson Center.

In addition to her work at Dickinson, Ms. Dippold's current community involvement includes, a board member for the Elk County Family Resource Network Collaborative Board, a member of the Advisory Board of the Elk County Community Foundation's "Women Who Care Committee," and a board member of the St. Marys United Way.

Jen began her duties with the Foundation on August 1, 2018, and thus she had the opportunity to lead the foundation through three quarterly meetings, and she participated in the Foundation's 2018 annual August Retreat

Jen was born and raised in St. Marys, Pa. She is a graduate of St. Marys Area High School and Lock Haven University. She is married to Michael Dippold and she is the mother of two children. Having worked with Ms. Dippold for many years; and having great respect for her talents, it is my great pleasure to welcome her aboard and extend, on behalf of the Foundation's Trustees, our sincere best wishes for an exciting and rewarding career. Jen, we look forward to your direction.

A Message from the Executive Director

On December 31, 2018, Dr. William C. Conrad officially retired as the Foundation's long-term executive director. He is not leaving the Foundation entirely as he will continue to be a Lifetime Trustee and the Chairman of The Stackpole-Hall Foundation Board. Since 1951, the Foundation has distributed over \$40 Million in grants, and Bill has been a voice in those funding decisions for 47 of those years. He has created an incredible legacy and one that will carry on for as long as the Foundation exists.

Since my first day, August 1, 2018, I have had the honor and privilege to work with Bill. As some of you may know, Bill has his doctorate in history, and sharing stories of the past is a passion for him. Through those stories, I have come to understand the Stackpole and Hall families and their philanthropic activities in the community. I have the deepest respect for the Foundation's founders and the ongoing commitment of the family and Trustees.

As you may not know, I worked for 22 years as a human service worker and sought grants from the Foundation. I came to know how generous the Foundation was to our community. However, as I get acclimated to the Foundation, review documents, and process current grant requests, I am overwhelmed by the impact The Stackpole-Hall Foundation has made for the residents of Elk County. The Foundation helped pilot local hospitals, funded major capital campaign projects, maintained nonprofit organizations during state budget impasses, and implemented their staple project, the Dr. William C. Conrad Summer Jobs program. Additionally, the Foundation's funding has impacted our local schools, environment, arts, health and human service providers, and faith-based organizations. The Trustees are very humble about their philanthropic relationship with the community, and I am honored to be a part of this experience.

The Stackpole-Hall Foundation is a historic institution and very unique, especially for our rural community. As the Foundation moves closer to our 70th anniversary, I look forward to how our community will develop and grow. I am grateful that the Trustees have considered me as their ambassador and I am committed to ensuring that the Foundation's funding is providing the greatest impact. I look forward to working with the local nonprofits, and continuing to learn about all the projects and services organizations do to improve the quality of life for our community.

A Message from the Executive Director Continued

Finally, I would like to share a poem that Dr. Conrad wrote in his published book titled, "Ripples on a Pond." It illustrates the impact that one person can have over their life, actions that ripple outward over time, growing larger and larger as they go.

Ripples on a Pond

The hand that casts the skipping stone
Brings ripples on the pond
And thus a change begins
That tempts one to respond.

And so as life relates
That ripples one creates
Requires a casting hand
To change a static state.

-W. Conrad

Thank you Dr. William C. Conrad for your service and commitment to our community.

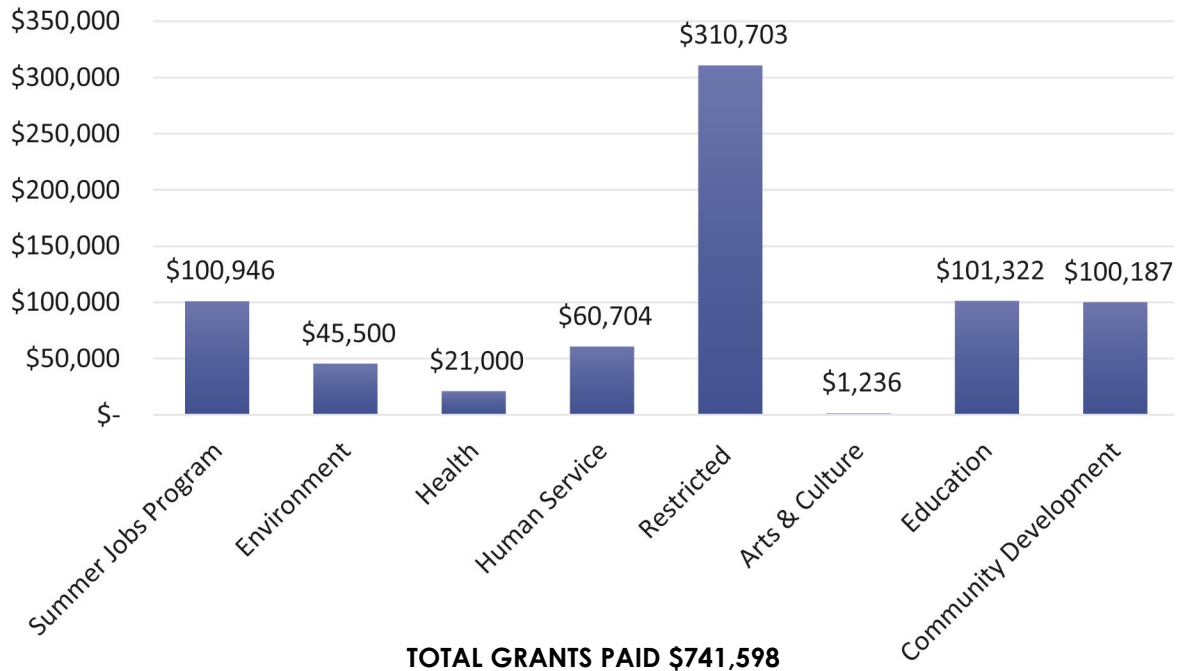

Jennifer M. Dippold

Executive Director

2018 GRANT DISTRIBUTION

The Stackpole-Hall Foundation is prepared to assist those organizations and institutions designed to enhance the social welfare of the area. In carrying out this mission, the Foundation provides matching money grants, seed money grants, partnership grants, and, under certain circumstances, operational grants to a host of educational, health care, cultural, youth development, social welfare, environmental, and community development needs.

The Foundation's Trustees have established a policy, exceptions to which are very seldom made, designating the area of geographic priority to be Elk County, Pennsylvania, and communities in which the Donors, Donors' families, and Trustees reside.

Dr. William C. Conrad

SUMMER JOBS PROGRAM - \$100,946

The Stackpole-Hall Foundation, in cooperation with the Pennsylvania Higher Education Assistance Agency (PHEAA), continued its successful Dr. William C. Conrad Summer Jobs program which began in 1985. This program allows college students from Elk County to gain work experience, ideally in their field of study, from non-profit agencies. In the joint effort, the Foundation provides funding for 40% of the wages earned, the Pennsylvania State Work Study program provides funding for 50%, and the employers are responsible for the remaining 10%.

A total of 82 students were employed in 2018. The following is a list of the employers, number of students employed, and the Foundation's share of the wages.

For 2018, the Community Education Center (CEC) hired an education assistant to help mainly with the CEC's DISCOVER Partnership programs. New in 2018, they expanded the program and partnered with local summer youth camps. The summer worker created various lesson plans and delivered them to approximately 75 elementary and middle school summer campers.

Pictured to the left, are some of those youth who participated.

SUMMER JOBS PROGRAM - continued

Penn State Cooperative Extension summer workers facilitate STEM program throughout the summer.

Thank you Dr. Conrad for your vision 34 years ago! The Summer Jobs program provides our community with a program that enables Elk County college students the ability to gain work experience in their field of study. Since 1985, The Stackpole-Hall Foundation has provided 3,682 jobs and committed \$4.5 million dollars. Annually, approximately 30 not-for-profit employers utilize the Dr. William C. Conrad Summer Jobs program.

Looking downhill at an acid mine drainage seep on West Creek. Water from abandoned mine seeps is often acidic and contains metals. As water seeps from the hillside, it deposits iron and turns the sediment orange. The iron has formed a hard, thick crust on the sediment over time.

A former vent shaft for an abandoned coal mine in West Creek. Due to the alterations from deep mining many years ago, the abandoned mines in West Creek have filled with groundwater. The groundwater comes into contact with leftover coal, becomes acidified, dissolves metals, and leaves the mine through this former air vent.

RESTRICTED FUNDS - \$310,703

The Restricted Grants category resulted from funds designated by the bequests of Lyle G. Hall, Sr. and J. Hall Stackpole. The distribution, adjusted for the proportionate share of expenses and excise taxes, is paid annually to those organizations specified by Mr. Hall and Mr. Stackpole. The following is a listing of the earmarked recipients and the grant amounts.

Lyle G. Hall, Sr.

Lyle G. Hall, Sr. was born in St. Marys, PA, in 1886 but lived most of his life in Ridgway, PA. He attended Phillips Academy, Andover, Massachusetts, and graduated in 1910 from Yale University. Mr. Hall's community involvement was an abiding part of his personality. His dedication to the boy scout movement was probably one of his most fulfilling associations, in as much as he helped organize the Bucktail Council. Mr. Hall was known as a highly educated and refined gentleman with a great sense of humor. He enthusiastically supported every worth-while project or enterprise for the benefit of the people of Elk County. Mr. Hall passed away on April 28, 1958.

J. Hall Stackpole

James Hall Stackpole was born in Ridgway, Pennsylvania, but lived most of his life in St. Marys. He graduated from Hotchkiss Preparatory School in 1920 and graduated from Yale University in 1924. After completing his formal education, he returned to Elk County taking permanent employment at the Stackpole Carbon Company and elected Chairman of the Board, a position he held until he passed away on August 21, 1964. When he passed, the local newspaper described him as one noted for his willingness to extend a helping hand and financial assistance to an untold number of people who appealed to him, and that his life was filled with acts of kindness that have endeared him to the hearts of many.

Independent Auditor's Report

**Board of Trustees
The Stackpole-Hall Foundation**

We have audited the accompanying financial statements of The Stackpole-Hall Foundation (Foundation), which comprise the statements of financial position as of December 31, 2018 and 2017, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of December 31, 2018 and 2017 and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.
